## *From the President Desk*

**ANANT BALIA SEVASHRAM (ANANT BALIA SEVASHRAM)** over the last decade has established itself as an organization committed towards welfare and community Development. The organization has worked with multiple stakeholders: governmental bodies, media, private sector, international and national NGOs and multilateral organizations to create a platform and an understanding towards this marginalized and voiceless section of the society.

Taking impetus from its previous work **ANANT BALIA SEVASHRAM** this year articulated and highlighted issues of community Development at the District level as well. **ANANT BALIA SEVASHRAM** were able to present its experience of working with local policing systems vis-à-vis welfare and community Development. The presentation also included how its work on sensitization and working with local governments and juvenile justice system led to greater impact.

**ANANT BALIA SEVASHRAM** also understand that welfare and community Development sometime unwittingly become part of corporate supply chains. To ensure opportunities of education, health, nutrition, play and survival it was thus necessary to work with the private sector. **ANANT BALIA SEVASHRAM** therefore led consultations with the private sector in India.

All these activities made it possible for **ANANT BALIA SEVASHRAM** to highlight a few issues at the national level.

Sebanand Das  
President

The ANANT BALIA SEVASHRAM (ANANT BALIA SEVASHRAM) works to strengthen the capacity of diverse women's movements to have the confidence, skills and resources to influence the usage, development and decision-making of the internet. This is so that they are

able to engage with it as a political space to challenge discriminatory norms, structures and practices, amplify their work for women's rights and gender justice and respond to the barriers that prevent them from benefiting from information and communication technologies (ICTs).

Our work stems from recognition of the enormous potential of ICTs to strengthen social, political, cultural and economic development, and to advance the human rights of women and girls. ICTs present a powerful platform for expression, for accessing information and for creating and sharing narratives that can lead to changes in norms and values that contribute to discrimination and inequality.
